2023 -2024

REACHING HAND®

From the

President's Desk

Dear Supporters and Partners

I would like to personally thank you for your generosity and continuous support, as we embark on yet another significant year.

At New Home and Light House School, Reaching Hand has made great progress in providing free education for vulnerable children. We have also encouraged government schools to digitise their classrooms under Namma Shale program. Under our Girls Glory Program we promote WaSH and MHM for adolescent girls studying at government schools. Our Pratishtha program imparts skill development training to underprivileged students.

Your belief in our mission empowers us to reach new heights. This year, we have had a new project called Women's Glory focusing on empowering women on WaSH and MHM. These milestones are a testament to what we can achieve together.

We are thrilled to announce some of our upcoming projects, such our emphasis on sustainability and a cleaner environment. As we work to strengthen communities from the most vulnerable segments of our society, your ongoing collaboration is essential.

Thank you once again for your trust, commitment, and partnership. Together, we are making a difference.

Warm Regards,

Mr. Abey Thomas

About us

We are dedicated to empowering underprivileged communities through sustainable development and education initiatives. Founded in 1996, our mission is to create opportunities and foster self-reliance among those we serve. We believe that every individual deserves access to quality education, healthcare, and the resources necessary to thrive.

Our programs focus on holistic development, including educational support for children, vocational training for youth, and health awareness initiatives for children and women. We collaborate with local communities, volunteers, and partners to implement impactful solutions that address the root causes of problems in the society.

With a team of passionate individuals and a commitment to transparency and accountability, Reaching Hand strives to inspire change and uplift lives. Together, we are creating a brighter future for marginalized communities, "One step at a time!"

Our Vision

"To empower communities globally, bringing hope for a better tomorrow."

Our Mission

Create	Opportunities to innovate strategies across our focus communities
Connect	with Beneficiaries Through life-transforming engagements.
Collaborate	With like-minded partners across the globe to raise volunteer & resources.

Community Focus

Impact in Numbers

We progressively impacted 50000+ children, 50% being girls.

Over 246 +Youth have been trained, skilled and employed.

500 + volunteers have been actively mobilised for community development.

28 Schools have been empowered with digital & STEM learning.

4161 Girls in Government schools have been trained on MHM.

615 Women have been empowered from Garment Factories on WaSH & MHM.

New Home

Objective

This program is designed to nurture the most vulnerable children's growth in all aspects of their life including physical,emotional, social, intellectual and moral values.

New Home campus is focused on creating a safe, supportive and child- friendly environment for children while emphasizing the importance of quality education. This dual approach is crucial for fostering both academic success and overall well-being.

Our Approach

- Ensure children's physical growth by providing nutritious & balanced diet.
- Ensure children's emotional well-being by providing psycho social support
- Ensure dignity of children by providing safe shelter,clothing and opportunity to thrive in an inclusive environment.
- Ensure intellectual development of the children by providing quality education, co-curricular activities and life skills.

Story of Hope

Neha's (Name Changed) story is one of resilience and personal growth. After losing her father at a young age, her family faced significant challenges. To provide support, Neha's mother enrolled her to New Home in 2019.

Since then, Neha has experienced a wealth of opportunities for learning and development. Her time at New Home has not only been on academics but also on uncovering her passion at art. With her natural leadership skills and infectious smile, she ultimately became the head girl at her school, inspiring her peers along the way.

Program Summary

Child Protection & Shelter Home for underprivileged girls

Number of Beneficiaries

50

Target Beneficiaries

Vulnerable girl children from ages (7 - 18 yrs) from severely deprived households

SDG

The program is aligned to SDG 2 , SDG 3, SDG 4 and SDG 6

Our Goal

To facilitate most vulnerable girl children to lead a dignified life.

Duration

Ongoing Program

Program Started

2006

Impact

Holistic care of 50 underprivileged girls.

Three of our girls have graduated from 10th grade.

90 % of our girls have secured good marks and are promoted to the next class.

Highlights of the year...

Kabaddi match winners

Inter - home talent competition winners

Graduation ceremony

Activities at a glance....

Art Classes

Taekwondo Classes

Sensory Development

Group Collaborative Counseling Sessions

"In the midst of adversity, Seema found solace and opportunity in New Home."

Seema (name changed) is a bright child and has progressed ever since she joined New Home. Seema says, "I'm so thankful for this home. It gave me everything I needed, and it introduced me to books. My dream is to be a doctor, so I can help people feel better." She believes that by reading and learning, she could become the kind of doctor who heals both the body and the soul.

Girls Glory

Objective

Girls Glory Program is designed to facilitate dignified life for students, especially the girl children. To provide extensive awareness on the use of Water, Sanitation & Hygiene (WaSH). We also sensitize girls on Menstrual Hygiene Management (MHM). To bring behavioural change among students.

To ensure safe drinking water, sanitation, healthy lives & promoting well-being for all.

Our Approach

- To work in collaboration with Government, education department, schools and SDMC to ensure WaSH facility for all students.
- To construct and renovate washrooms in Government Schools to ensure hygienic and separate toilets for girls and boys.
- To conduct workshops for all the students in Government Schools in order to sensitize them on WaSH.
- To create awareness among girl children on menstrual health management and install incinerators in the respective government schools
- To form and equip WaSH committees to ensure sustainability of Girls Glory program.
- To ensure access to safe drinking water in Government Schools.
- To support schools with janitors to maintain cleanliness.

In the Pursuit of a Cleaner Future

Nimra Nikath | 14 year old

"The Menstrual Hygiene Management workshop covered practical knowledge & insights, my questions were answered which I was shy to ask my mother. Thank you to Reaching Hand for initiating the improvement of facilities at my school."

Testimonial

Mr. Mallikarjuna, Science teacher,
GHS Kyalanur , Kolar

The STEM Lab provided by Reaching Hand is very useful and now our teachers are able to teach students using the working models. The students are able to enjoy the mathematical equations which are explained using the boards. Most of the students enjoy the physics models. We are grateful to Reaching hand for selecting our school & providing the STEM LAB.

Danush, 8th Grade
GHS Makali, Bangalore

Danush aspires to become a police officer some day. He says "Now with the help of the Digital Panel,I am able to study well. The digital board is helping me study through visual pictures & videos."

Additionally, My English Language pronunciation is improving day by day. I am more confident in my life"

"My favourite subject is biology. In my free time I usually read information about the human anatomy. Since my school now has a STEM Lab. I'm thrilled to learn concepts of science. The models are easy to understand. Thank you Reaching Hand."

Tiffin Boxes distributed to students

Pratishtha

Objective

The primary goal of Pratishtha is to equip underprivileged youth with essential ,technical and entrepreneurial skills. This comprehensive skill development approach ensures that young individuals are not only capable of securing jobs but also prepared to excel in various professional environments.

Our Approach

- Students are mobilized through a variety of targeted strategies designed to reach diverse communities. Our dedicated staff conduct community visits in key areas, including colleges and slum regions, to engage directly with potential students.
- Providing career and life skills training which enhances the employability of the youth. Our training focuses on theoretical knowledge and practical skills giving them opportunities to visit relevant industries,companies, research facilities to give first hand experience of that field.
- Organise placement drives with local business' and organisations who are looking for fresh talents. Students are provided with sessions on resume building, interview preparation and personal branding enhancing their job opportunities.

A turning point in life

Krutika Nadgeri, a B.E Civil Engineering graduate, having pursued her degree from Godutai Engineering College for Women was unable to get a decent Job. "Hailing from a small village & a low-income family, proved to be a barrier & I was unable to upskill or get a job. I was keen on enrolling for a CAD Course."

She found Reaching Hand's social media handle, became a turning point in her life. She goes on to say - "The opportunity to access these courses at no cost through Reaching Hand was truly a blessing! Thanks to Reaching Hand 's CAD course, I have secured a position as an Evaluation Engineer at reputed construction company.

Mobilizing Courses in the community

A new door of opportunities

Sunil E,was not able to find a suitable Job. He says " After completing my B. Com, I began searching for a job, but soon discovered that many employers required technical skills that I did not possess,particularly in computers & accounting software like Tally. Recognizing the gap in my skills, I looked for courses that could help me become more employable. I came across several private organizations that offered courses in computer literacy, Tally and other technical skills.However, the fees for these courses were around Rs 35,000/- which I simply could not afford given my financial situation.

A friend of mine told me about Reaching Hand. I decided to enroll in Core Employability Skills course. This was a life-changing decision. I now proudly can say that I have got a Job in Accenture with a very handsome salary.

Light House International Academy

Objective

Light House International is a school dedicated for underprivileged children facing educational challenges due to poverty and trauma. The school focuses on creating a nurturing environment that supports healing and personal growth. The school emphasis on the academic excellence of the children.

Our Approach

- Underprivileged children suffering from poverty & students who have no access to quality education, are exclusively admitted into our school.
- To provide quality education in English Medium from nursery to tenth grade.
- Tailored and comprehensive curriculum to suit student's capacity.
- Provide free mid-day meals and regular medical check ups to ensure physical well being.
- Provide transportation for children to and fro to ensure regular attendance
- Our teaching methodology involves imparting knowledge to our students through the best possible ways in a nurturing environment through remedial classes, curricular & co-curricular activities, STEM learning.
- Special focus is given for Sports by appointing two coaches to train our students in football , Athletics, Kabaddi and Cricket.
- Our facilities include well equipped classrooms, Computer Labs, a library, a STEM Lab, digital interactive Panel and well maintained playground.

Program Summary

School for underprivileged children.

Upcoming Plans

We plan to reach out to 200 underprivileged children, from nearby villages & other group foster homes. We have started the construction of additional classrooms & a computer Lab for our school to facilitate our vision

Women's Glory

Did You Know ??!

$87 Billion GDP is lost due to Period Poverty in India?

Objective

To sensitize women on Menstrual Hygiene Management.
To bring behavioural change among women in handling their Menstruation effectively.
To facilitate women to save money by using menstrual cups and environmental friendly bio-degradable pads.
To create Eco- friendly atmosphere at workplace and the community.

Our Approach

- Identify most vulnerable women who are working in small scale industries.
- Sensitizing women on Menstrual Hygiene Management by trained health workers
- Setting up help desk/ Helpline to address the Menstrual Hygiene Management issues of women.
- Organising health camps for women facing health issues.
- Promoting Bio degradable Menstrual products such as Menstrual cup
- Ensuring an Eco-friendly atmosphere by setting up of Incinerators for better hygiene Management.

Health Camp was conducted for 787 Women successfully.

Beneficiary Feedback

The menstrual cup changed the way I think about my period. I have been using it for the past three months. It is so comfortable to use.
No discomfort ! Environment friendly too.

Menstrual Awareness Session was informative. Thank you for the MHM Kit. The Gynac Health Check Up Camp organised by Reaching Hand was helpful for me and my colleagues. We needed that !

Nagarathana
Employee at Shell Apparel

Vasudha, Proprietor
Shell Apparels

"I am amazed to hear the hygiene transformation among our staff. 70% of our staff have pledged to use the menstrual cup as part of the sustainability initiate that our organisation has undertaken to keep after the intervention of Reaching Hand.

After the installation of the pad incinerator there has also been a decrease in blocked toilet sewage pipes and an increase in hygiene.
This has created an eco-friendly environment in our premises thus increased productivity at workplace.
This truly is remarkable!"

Impact

- 615 Women at Garment Factories were trained on Menstrual Hygiene Management.
- Help Desks / Helplines have been established to cater to the needs of women workers, which has significantly improved the working environment for women,fostering a sense of respect.
- 615 women received bio-degradable Menstrual products such as Menstraul cups /Sanitary pads, Intimate hygiene wash, Toilet Roll.
- Pad Incinerators have been installed at both the Apparel factories which has reduced 99% pipe blockages.
- 787 Women were screened at the health camp for gynac related health issues and needy women were provided with follow up treatment.

"Over the years, I've spearheaded initiatives aimed at promoting hygiene among our women workers. However, our efforts faced many challenges.

Reaching Hand Stepped in to support our cause. Their Interventions have aimed to dispel stigma and myths surrounding Menstrual Hygiene . Our heartfelt gratitude to the team at Reaching Hand for providing us with Help Desk,health works and for promoting the most needed change and a positive work environment.

Mr. Srinivas
General Manager , Sunita Impex Manufacturing Company

Volunteer Engagement

Reaching Hand is privileged to partner with like minded Corporates for their valuable time and support to benefit the underprivileged children studying in government schools and communities.We value their time spent with childeren and the communities.

Reaching Hand believes Volunteers from Corporate Companies & other walks of life have the potential to make a difference in the lives of less fortunate children. We engage like minded people in our programs who can donate their time, skills & expertise in teaching & capacity building of children & our staff . This provides an excellent space for working professionals & others to experience the joy of Volunteering.

Highlights of Volunteering activities during the year

We engaged 500+ Volunteers last year and we look forward to engage more in the coming year

A fruitful step towards sustainability

As part of the Reach Plantation drive we are thrilled to share the first yield of Pomegranates from Chikkabanavara Government School. This was possible with the collaborative effort of like-minded Corporate.

Testimonial

Mr. Harishgowda SK

Principal | Chikkabanavara Government School

Our school has taken the pledge to promote a greener environment. We have planted various fruit trees in our campus which was supported by Reaching Hand's Plantation Drive. We have noticed that more students are now interested in nurturing these saplings. The saplings are now yielding.

We have Mangoes, Pomogranets and many more fruits. In the coming months we will be planting more medicinal herbs and plants so that more of students are aware of the importance of plants and trees

Volunteering Opportunities

- Creative painting in government schools
- Mentoring, Coaching & Career Guidance
- Workshops on Health & Hygiene
- School Clean Drive
- Basic Computer Skills
- Social Media Marketing
- Run for us at Marathon and Fundraising Events
- Make a heart whelming documentary

Our Governance & Management

Reaching Hand is governed by a Trust Deed,which specifies its objectives & powers. Our governing Board consists of 5 members who take the vision and mission of the organization forward to create a lasting impact for the less privileged.

We also have a passionate and experienced Social Development Professionals committed to transform, empower and develop so to make a positive impact in our community. Our dedicated Management & the staff are the driving force behind our mission.
